

Orphanage Project

"It is the most worthwhile thing I've ever done."

Work with other LDS volunteers in a safe, established program.

OSSO volunteers work with:

- * infants, toddlers, and preschool-age children
- * handicapped children
- * older girls and boys

We love, hold, feed, change, do therapy and play with the younger children and provide music, English, art, and dance activities for older children.

The program is year-round. Groups leave every 4 weeks. See website for specific dates.

Volunteers typically stay for 2-3 months, caring for kids 40-65 hours a week. Shorter Family Service Adventures stays are available, too.

We serve in Quito and Cuenca, Ecuador

"I came to change the world and I think [what] changed was me."

If you're not interested in volunteering, you can still help these children by giving this flyer to someone else who may be interested.

Thank you!
