#### **NOTES:**

- If interested in going for 6-8 months and have had at least three (3) college semesters of Spanish, please contact us (for other times, Spanish not required).
- We occasionally open up half-time spots (other than those normally listed) in order to even out group sizes. However, we don't make this decision until it's a month or two before the departure date, and so if we do open up some half-time spots, we'll post this here, so just keep checking back, or you can have your name put on a waiting list if that's an option we give.
- If your school semester starts (actual class days) before you would normally return home (according to the above dates), you can probably arrange with us to return a couple days early, but this may cost you extra.
- Some colleges/universities offer block semesters which could be attended either before or after some of these program schedules. Contact your school for more information.
- For any group at any time, applicants with significant Spanish language ability will still be considered.
